GENIE - Gifted Education Needs Identification Engine

Averages clusters of scores and calculates reliability statistics in order to help gifted education professionals more easily identify a variety of kinds of giftedness across multiple developmental stages. Drafts reports, letters, and goals to make the identification process easier.

FTAP Express - Frasier Talent Assessment Profile with Enhancements for New Mexico

Helps to reduce bias in tests used for gifted identification, and graphically display profiles of strength and weakness. Includes updated norms.

What: New Evaluators can obtain initial certification for 1 year. December 5-7, 2017 Evaluators and Trainers can renew current certifications for another 3 years. Dec 5, 2017

Where: Region IX Ed. Coop, 143 El Paso Road Ruidoso, NM 88345

When: 8:30-3:30 PM each day

Cost: Registration is \$400 per person + NM Gross Receipts Tax for the New Evaluator training, \$150 + NMGRT for the Update training (New LOWER price!).

Register: By emailing Kathy Price with participant info, contact & PO#.

What this training will do:	What we won't do:
Explain how the FTAP GENIE Profile fits into NM and NAGC criteria for identification of gifted students.	Have time for in depth explanation of philosophical issues over identification/services.
Prepare you to successfully implement the process in your district.	Leave you high and dry without help!
Provide the resources you need. The FTAP GENIE Profile is remaining in the public domain!	Actually order or pay for Rating Scales, CogAT or Torrance test materials your school/district needs.
Provide comprehensive additional resources.	Disregard your school/district unique needs.
Provide a network of educators for differentiated support and help.
